SOS-Apo Vitamin D3 K2 Tropfen 30ml	1000 IE	20 µg

Dutch Natural Healing / Pater Zen Producties B.V., as manufacturer of the product(s) listed above, hereby confirms that these products are **vegan** and comply with the following points:

- The products contain no ingredients of animal origin. All raw materials used are of plant, mineral or synthetic origin.
- No animal-derived processing aids, carriers or additives (such as gelatine, lactose, beeswax, carmine, shellac, lanolin, collagen, keratin, honey or milk derivatives) are used in the formulation.
- No animal-derived substances are used in the primary packaging that is in direct contact with the product.
- No animal testing is carried out by the manufacturer or, to the best of our knowledge, commissioned on our behalf for these finished products or their ingredients.

Manufacturing note: The products are manufactured under a certified quality management system ISO22000:2018. Production takes place in a facility where segregation procedures and cleaning validation are in place. Where shared equipment is used, appropriate controls minimise the risk of cross-contact with animal-derived materials.

Basis of declaration: This declaration is issued on the basis of supplier specifications, ingredient documentation and the recipe held by the manufacturer. It is aligned with the commonly accepted definition of veganism and, for cosmetic products, with the animal testing provisions of Regulation (EC) No 1223/2009.

Validity: This declaration remains valid until revoked in writing or until a change in formulation, raw material or supplier occurs. A new declaration will be issued upon any such change or on request.
